Great Nuts Always

"In 1934, our great grandfather formed a company called De Schaap B.V. by purchasing a small store in Amsterdam, The Netherlands. Noticing the lack of quality throughout the marketplace, he dreamed of breaking free from the status quo. By importing only the finest nuts and dried fruits, he took great care to select a range of products that would delight every one of his client's senses. Visiting his store was never a simple trip to the market. It was an experience where you would find yourself surrounded by alluring sights, pleasant smells and kind people.

After bringing joy to so many people, he had every intention to share this experience with all of Europe. Shortly before the Second World War, his business had grown large enough to purchase a

small warehouse. Sadly, both the factory and our great grandfather didn't survive the war. **Although he lost his chance to fulfill his dreams, we have never lost touch of our great grandfathers' legacy.**"

For over 80 years, our belief has always been that the customer defines our success. Since 1934, our family has placed significant value on quality. L'Orenta is no exception; we have sought out local farms that provide us with only the freshest ingredients to work with. From there, we infuse them with unique European flavors that will arouse and excite your senses. When you visit L'Orenta, you will be enveloped in warm aromas and exquisite tastes. Like our great grandfather so many years ago, we invite you into our home."
